

#### BAKING/ HEATING INSTRUCTIONS – Savouries

This is a general guideline only, times & temperatures may vary due to different oven/warmer brands.

We do not recommend our savoury products to be heated in the microwave.

Frozen products must be completely thawed before preparation.

#### BAKING FROZEN UNBAKED PRODUCTS:

1. Preheat oven to 210°C
2. Ensure the product is completely thawed before heating for best results, tray up and leave overnight in the chiller to thaw out.
3. Brush egg wash (1 part milk, 2 parts egg) over the product.
4. Place in oven and bake at 210°C for 20 minutes or until the top of the product is golden brown.

#### HEATING BAKED PRODUCTS

1. Preheat oven to 180°C
2. Place trayed up products in hot oven for approx. 15-20 minutes
3. Recommended holding and serving core temperature 70°C

#### PIE WARMERS

1. Preheat product in oven as above prior to placement in warmer.
2. Preheat pie warmer prior to placement of product.
3. Arrange no more than 8 pies, 6 pastries or 12 sausage rolls per shelf, leaving lower shelf empty (depends on size of warmer)
4. Recommended holding and serving core temperature 70°C
5. Remove from lower shelf first. Check product for excessive drying.
6. Discard unsold products at end of trade or after 4 hours in the warmer.

**\*\*We do not recommend our savoury products to be microwaved before placing in the warmer\*\***

#### HANDLING AND STORAGE INSTRUCTIONS

Frozen products should be kept frozen at minus 18°C and fresh products should be kept refrigerated at 5°C or less until ready to use.
